## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendments filed January 19, 2005 have been fully considered. In light of the amendments, the rejections made under 35 USC 103 have been withdrawn by the examiner. The examiner acknowledges the cancellation of claims 1-12. Claims 13-23 pending.

### ***Allowable Subject Matter***

2. Claims 13-23 are allowed.

3. The following is an examiner's statement of reasons for allowance: None of the prior art cited or reviewed by the examiner teaches or fairly suggests cold gas spray of a turbine, followed by vacuum sinter, hot isostatic pressure and then separate heat treatment. The prior art reviewed by the examiner only teaches following a high density coating with a post spraying heat treatment including vacuum sintering and hot isostatic pressure steps, but fails to following the hot isostatic with a separate and distinct heat treatment step.
